

# VIRTUAL MEETING BACKDROPS

As the majority of our jobs has switched to remote environments due to the tragic COVID-19 pandemic, in-person sales calls and meetings has stopped. However, the amount of virtual sales calls and meetings has skyrocketed. By utilizing fabric backdrops, these virtual meetings with co-workers and customers will keep an organized, professional and branded look, even when made from home.

Super Color Digital offers an array of different backdrops to fit any working environment. Best of all, each backdrop is easy to install and dismantle, relieving any added stress not needed during this tough time.

We carry such backdrop solutions as simple pull-up banners to large backdrops. We have you covered no matter the size or shape.

We are not just a printer, but a printing partner here for our client partners every step of the way.

Orders can be placed by calling your Super Color Digital account rep directly or by calling 800.979.4446.
