

**AFTER THE STORM (COVID-19 CORONAVIRUS)
SAFETY & SOCIAL DISTANCING HANGING BARRIER SOLUTIONS**

KEEP CLEAN

PROTECT

STAY HEALTHY

WE ARE HERE FOR YOU

Social distancing has become mandatory in almost every environment in our ever-changing world and because of that the need for safety and social distancing products has grown exponentially. With the economy beginning to open up slowly state by state, county by county, city by city, how do you see your business operating? Are you ready to open with all of the safety tools in place to keep your employees and customers safe?

Based on this foreseen challenge, Super Color Digital has developed several essential safety and social distancing hanging barriers; ideal products for nearly every industry.

SOCIAL DISTANCING HANGING BARRIER SOLUTIONS

The CDC has recommended that we keep a social distance of 6' per person. For many people, it is very hard to judge exactly how far 6' away is from another person. Because of this, you will find people congregating or standing in lines well within the 6' social distance safety area in many environments. Many areas require mandatory close interaction in the retail & office environments and are well within the 6' recommended social distance safety area, making it a major health concern.

Super Color Digital has created a transparent vinyl hanging Safety Barrier to help with this "mandatory close interaction" concern. The protective barriers are made to create a buffer between people in almost any environment. The buffer helps deflect a large number of airborne particles that may be produced by breathing or by an involuntary cough or a sneeze.

Our barriers are constructed out of clear marine vinyl, which is used in a wide range of applications, such as boat windows, outdoor porch windows, and used to construct greenhouses. The barriers are designed to be economical, strong, and durable for years of use. The barriers are 100% transparent and cleanable.

HANGING BARRIER BENEFITS

- Easy to clean and sanitize
- 100% transparent (Clear)
- Can be easily installed from any ceiling or overhang
- Manufactured out of durable marine vinyl and aluminum for increased durability
- Pricing varies by solution/item and quantity
- Timing varies by solution/item and quantity
